

# Watershed Scavenger Hunt

Name:

Date:

Location:

## FIND THE FOLLOWING:

- An impervious or covered surface (concrete, driveway, brick)
- A pervious surface like grass, exposed soil, plant pot, bare ground.
- A tree, plant, or weed that might absorb water when it rains 
- Erosion or land wearing away

Name 3 places you see where water might go when it rains.

\_\_\_\_\_  \_\_\_\_\_  \_\_\_\_\_

Find soil, or dirt, and write its color: \_\_\_\_\_

Name one place where water comes into your watershed:  
\_\_\_\_\_

Name one place where water goes out of your watershed:  
\_\_\_\_\_

An animal or human using the watershed around you. 

A faucet, sink, or human made water source

A drain, ditch, puddle or place where water collects.

A place where nutrients like dog poo, fertilizer, compost, oil, soap, or other human "things" may make it into the water
